

GP 4 TO 8 SESSIONS PER WEEK SALARIED OR PARTNER : CORNWALL

Cornwall is not just for holidays! We really enjoy living and working here too. We have 2 partner-owned surgeries in the Tamar Valley, which is an area of outstanding natural beauty, in Callington and Gunnislake. Our list size is 16,600. We are a research and training practice with 8 GP partners, 2 pharmacist partners, 8 salaried GPs and almost 100 other dedicated team members.

We asked our staff why they like working at TVH and here are some of the things they said:

“The fantastic support the practice provides for training and development and the way we share learning together through mentor sessions and MDT meetings.”

“The brilliant service we are able to provide from our on-site dispensaries and pharmacy and the efficient team-working with our highly skilled acute care team and nursing team.”

“The opportunities we are now able to access through our PCN with a new mental health practitioner, social prescriber, pharmacy technician, first contact physiotherapist and care coordinators.”

“The sheep outside my window...and the people I work with - I actually miss them when I'm away - the people that is, not the sheep!”

Informal enquiries and visits welcome:
